

### **DIGITAL MAINTENANCE SYSTEM**

Self-developed maintenance system, with a fully online process, providing visualized maintenance procedures and transparent costs.

This system significantly enhances the digitization level of fleet lorry maintenance. It can be integrated with GPS for precise vehicle management and connected with external platforms. Additionally, the system can be customized according to the fleet's needs.

### **COMPANY OVERVIEW**

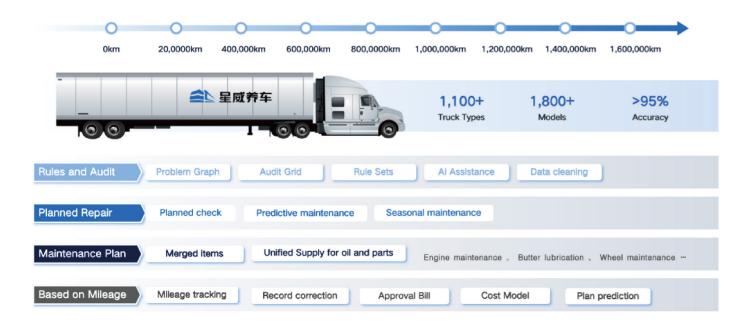

Shining Way is one of the largest and fastest growing lorry service providers in China, entered Malaysia and commenced serving the aftermarket for lorries in 2023.

As pioneers in comprehensive service and innovators in digital lorry service solutions, we lead the service model in good maintenance prevention over repair. Our commitment is to enhance vehicle uptime and reduce maintenance costs for our customers

# **COST REDUCTION**

Core Competency: Develop scientifically effective maintenance and repair service models for different lorry types.

Reduce vehicle repair failures through scientific maintenance plans, achieve maintenance instead of repair, and lower maintenance costs to ensure high vehicle availability.
